

PE and Sport Premium Report

Camelford Community Primary School | Academic year 2025–2026

The school received £18,370 in PE and Sport Premium funding during 2025–2026. The full allocation was spent on improving PE, school sport and opportunities for children to be active.

Funding and expenditure

Area of spending	Amount
Staff continuing professional development	£5,750
Equipment and resources	£5,290
Swimming and additional aquatic opportunities	£2,210
External sports competitions	£1,650
Memberships and subscriptions	£1,650
Extracurricular opportunities	£1,220
External coaching	£600
Total expenditure	£18,370

There was no unspent funding carried forward.

What the funding supported

Staff training and coaching. Plymouth Argyle coaches worked alongside teachers during PE lessons, giving staff opportunities to observe specialist teaching and develop their own practice.

Equipment and PE lessons. We purchased equipment to begin improving our gymnastics and dance provision, alongside other sports equipment for lessons and activities.

Competitions and wider opportunities. Children took part in school sport opportunities, including netball, football, rugby, multi-skills and cross-country. New sports kit helped pupils look smart and feel part of a team when representing the school.

Outdoor activity. School adults led and supported pupils in the Three Tors Challenge, encouraging teamwork, determination and participation in outdoor activity.

Inclusive PE. New sensory resources were purchased for our ARB classroom to support access to movement and physical activity. We also reported targeted provision for pupils with SEND, long-term medical conditions, girls and disadvantaged pupils.

Swimming. Catch-up swimming lessons were provided for pupils in Years 5 and 6 who needed additional opportunities to develop their swimming skills and water safety awareness.

Year 6 swimming outcomes

At the end of the 2025–2026 academic year, the following proportions of Year 6 pupils met the National Curriculum swimming requirements:

82% Swim at least 25 metres confidently and proficiently

79% Use a range of swimming strokes effectively

73% Perform safe self-rescue in different water-based situations

Impact and priorities for next year

The coaching and equipment purchased this year have given us a starting point for developing staff practice and improving gymnastics and dance lessons. Sports kit and competition opportunities have also helped us encourage children to take pride in representing the school. Our catch-up swimming lessons provided additional support for pupils working towards the expected swimming outcomes.

In 2026–2027, we will continue developing gymnastics and dance, make use of the equipment purchased and build on staff learning from specialist coaches. A particular priority is to support more children from our ARB to join mainstream PE lessons and sporting activities where appropriate, with suitable adaptations and support.

We will review staff feedback, pupil participation and swimming outcomes to help judge the longer-term impact of this work.

Figures are taken from the school's 2025–2026 PE and Sport Premium expenditure return.
