

Year 5/6 Learning

Summer term Week 2

Well done on a superb first week of Summer home learning. We have loved you sharing your learning with us. Please keep using Padlet and emailing us any other work. **You are all superstars.** Prizes for home learning will be announced on the Padlet link on Friday 17th (actual prizes will have to wait though!)

Maths

1. Fluent in Five - Week 2.
2. Mrs Rabson's Codebreakers. Year 5, you've got multiplication and division. Year 6, you've got ... decimals!
3. Mr Brown's extension questions – these are a good challenge for anyone!

PE

1. Keep active **safely**. Joe Wicks!
2. Visit the PE section of the Camelford school website (learning, overview curriculum subjects).
3. Look at the **6 people who inspired Mr Stevenson to love football article**. Can you think of 6 people who have made you love a sport? If so, write a similar article to Mr S.

Reading/SPAG/English

1. Continue with AR quizzing.
2. Practise 20 new words from the spelling list and get tested on them! No cheating!
3. Write a Newspaper Report on the adventures in your household so far during your time at home! Remember, it can be funny! Check out the template and Mr B's for an idea.

Topic

1. **Choose two European countries** (eg France, Portugal or Croatia).
 - Find them on Google Earth or a map if you own one.
 - Imagine an Alien is visiting Earth and wants to find out information about the similarities and differences between the two countries.
 - What information would you choose to tell them about these countries?
 - Some top tips:
 - Think about *their populations, capital cities, famous landmarks, famous people, how far from the UK, current president/prime minister, facts and pictures*.
 - Present the information in a poster/PowerPoint or verbally discuss with your family.

Send your learning into year5_6@camelford.cornwall.sch.uk

Have fun and good luck. We are all thinking of you. From the Year 5/6 Team.
