

Year 5 Learning

Summer term w/c 22th June

Good morning Year 5. We are looking forward to seeing some of you at the end of this week. Home learning will now take place from Thursday to Thursday so there will be new home learning posted on Thursday.

We know you don't always want to share your learning but if you could email us any, we'd be delighted to see it. Remember you can also say hello to your classmates on the padlet. <https://en-gb.padlet.com/gsmith89/W5>

English

Alongside the bitesize learning on offer, we would like you to reply to the person who wrote you a letter.

We really hoped you enjoyed reading their letter, seeing pictures of school and the incredible artwork that is now in place in your corridor.

If you'd like to write a letter to the person who wrote your letter and one of your friends as well, I'm sure they'd all love to see it! 😊

Introduction – why you're writing. Personalise – say thanks for writing. What did you enjoy reading? Thank you for the sunflower seed and the pictures of the art.	
First paragraph – what are you doing at home? Have you learnt any new skills? Are you playing any games/practising any hobbies?	
Second paragraph – what learning have you been doing? Is there any learning you've been doing at home that they might enjoy as well? Challenge them on TT Rockstars?	

Reading

We hoped you enjoyed the first chapters of Stranger Days. We have attached the next five chapters, alongside the reading comprehension.

I think you'll agree that this book really makes the normal things appear strange. You should now understand that something bad happened in the Vale of Strange to Peter and Amanda but we're not quite sure what ...

As previously, be warned ... things get even more mysterious!

Maths

For maths this week, we have attached some measurements work! Measurements are quite simple when you know whether you are multiplying or dividing by 10, 100 or 1000. Check out the PowerPoint to help you.

We've also attached a previous SATs paper to help you with brush up on your arithmetic skills. There is a maths investigation sheet just in case you need even more maths! 😊
