

Year 6 Learning

School Transition Week – 06.07.2020

Year 6! Good luck with your new tutors and classmates. We're sure you'll have a brilliant day.

For the learning, do what you can, when you can. It would be great if you could read all of the Stranger Days chapters we've uploaded.

See if you can have a go creating a quiz that is accessible to all! If your quiz is good enough, it could be the class quiz to be used when you return next week.

English & Reading

For English, we'd like you to research the origins of the NHS, which celebrated its 72nd Birthday this week. Can you produce a factfile/poster about the achievements of our wonderful NHS?

We've attached the next chapters of Stranger Days. As Peter and Mala try and find Mala's father, what strangeness will they encounter now?

Quiz!

There's been some controversy over the class quiz for the last couple of weeks. Some questions too easy, some a lot harder!

Now's your chance to create your own class quiz ready for when you come back in a week's time!

The best quiz questions or best quiz itself will be chosen in the final class quiz of Year 6 2020! Currently it's 2-1 Tintagel but it's all to play for!

Maths

For maths this week, we have attached the cinema investigation along with a combined maths and SPAG quiz! Good luck!

Remember that you can always check your arithmetic skills and speeds by challenging yourself on countdown! Just type in countdown numbers game to google to give it a go! 😊

The Mystery of Cinema Suspects

It is the premier of the new film 'Rambunctious Me 4', but during the screening, the film was switched for an old copy of 'Jaws 2' and the highly prized 'Rambunctious Me 4' was nowhere to be seen.

The alarm was raised (well everyone in the auditorium had noticed the film stop anyway), the house lights went up and there was mayhem, so it was impossible to see who was where.

The TV cameras were there filming people going in and the cinema's CCTV caught a number of people passing through the doorway during the film. The cinema also has records of who was sitting on which row.

You have been called in as the leading detective on the case and you have a team of Scene of Crime Officers (SOCOs) to assist you. Solve the following clues to eliminate all but one of the
