

ICE WORLDS

Ernest Shackleton –
was he the epitome
of resilience?

Fred's mind was quick, with sharp edges. He wanted more from the world than it had yet given.

- What does this quote tell you about Fred's character as a result of his current relationship with his father?

Surreptitiously

BEAST BOMBARDS SCHOOL!

A strange beast was spotted at a local school on Saturday 29th. It was unexpected and Mrs Howard, who is the Head Teacher of Camelford Primary, was called by the caretaker because of a mysterious flying creature.

Mr Harper (caretaker) was called to Camelford Primary school because an alarm had been set off. When he arrived he learnt that the woods appear to be vandalised and that there was a creature "that was the size of the bus". When Mrs Howard arrived she saw that the monster was real!

The monster was huge and Mr Harper said that its wingspan was about four meters. It was also believed to sound like a hybrid of an elephant and a lion. The monster also had scales instead of fur. Mrs Howard also said, "It made several attempts at flying but kept falling back down. When the police got there the creature was gone but Mr Harper had evidence on his phone, of the sound the creature made."

POLICE INCIDENT REPORT

Devon & Cornwall Police
Building safer communities together

REPORTING OFFICER: P.C. Elizabeth Black

CASE NUMBER: PR6754000

DATE: 29.01.2022

LOCATION: Camelford Primary School

NAME OF ALL PEOPLE INVOLVED: Rob Harper (caretaker), Anne Howard (Head Teacher)

SUMMARY OF INCIDENT

TIME OF CALLOUT: 11 35pm

REASON GIVEN: Alarm set off at Camelford Primary School – possible vandalism (woods area reported damaged) and reports of a strange animal flying in the sky above the school.

INITIAL OBSERVATIONS: On arrival, the caretaker, Mr Harper, and Head Teacher, Mrs Howard, led us to the location of the suspected vandalism.

Whilst investigating the area, we heard a loud sound (like a tiger and an elephant mixed together) and observed an extremely large creature (approximately the size of a bus) launch itself out of the school's wooded area into the sky. It flew towards the moor at an astounding speed therefore it was impossible to follow in the patrol car.

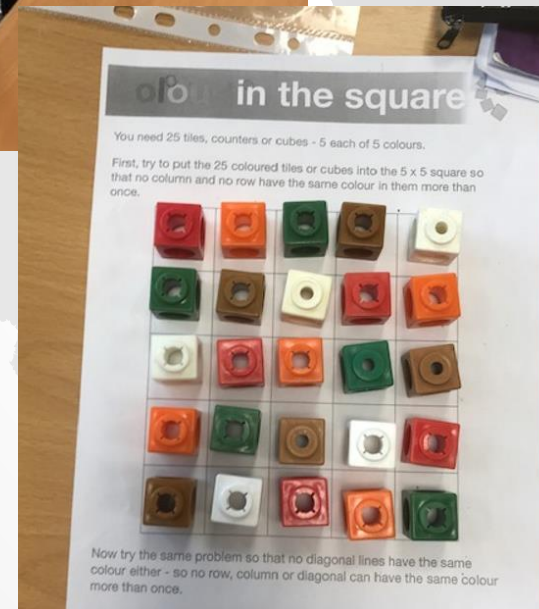

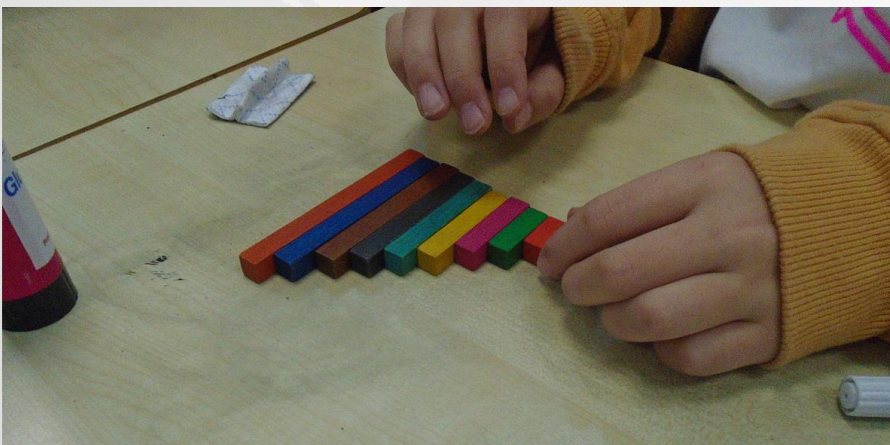

No one was harmed and Mr Harper swiftly repaired the damage to the woods. Traces of an unknown yellow substance was found on several tree trunks, they have been sent off for analysis.

WITNESS STATEMENTS: recorded on video (see file numbers RH30122 and AH30122)

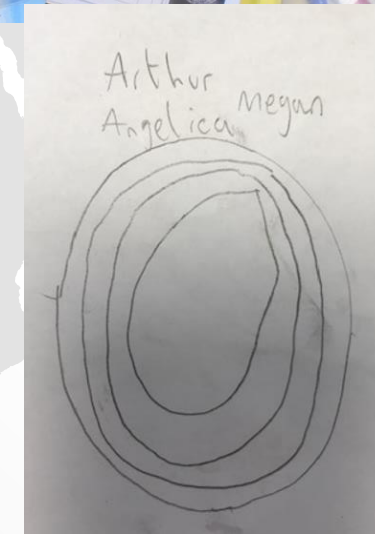

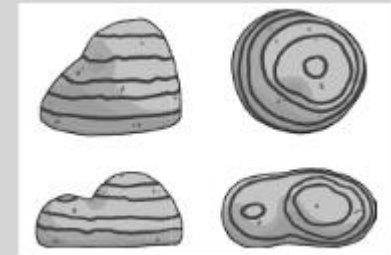

ACTIONS: Witness statements taken and complete report forwarded to DEFRA (Department for Environment, Farm and Rural Affairs) for further investigation.

English

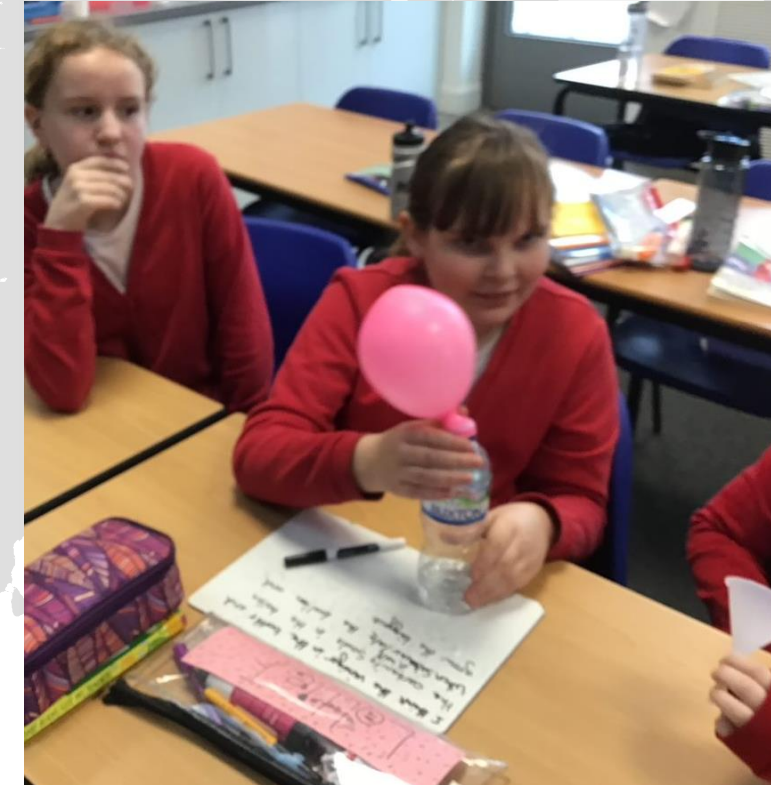

We had great fun reporting about the dragon sighting in Camelford and creating our own adventure story.

Maths
Number day for the NSPCC was a fantastic day full of challenge.

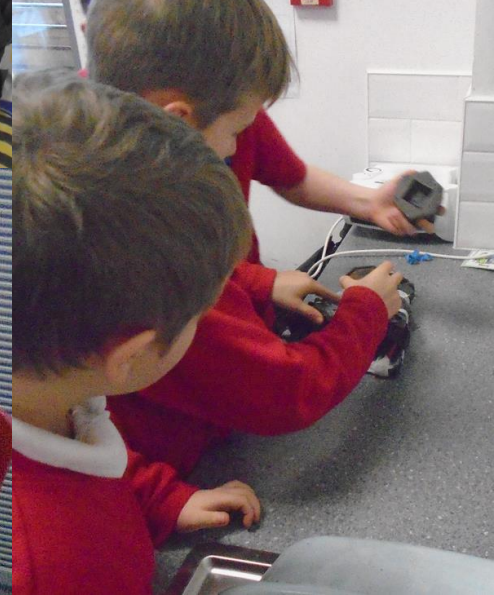

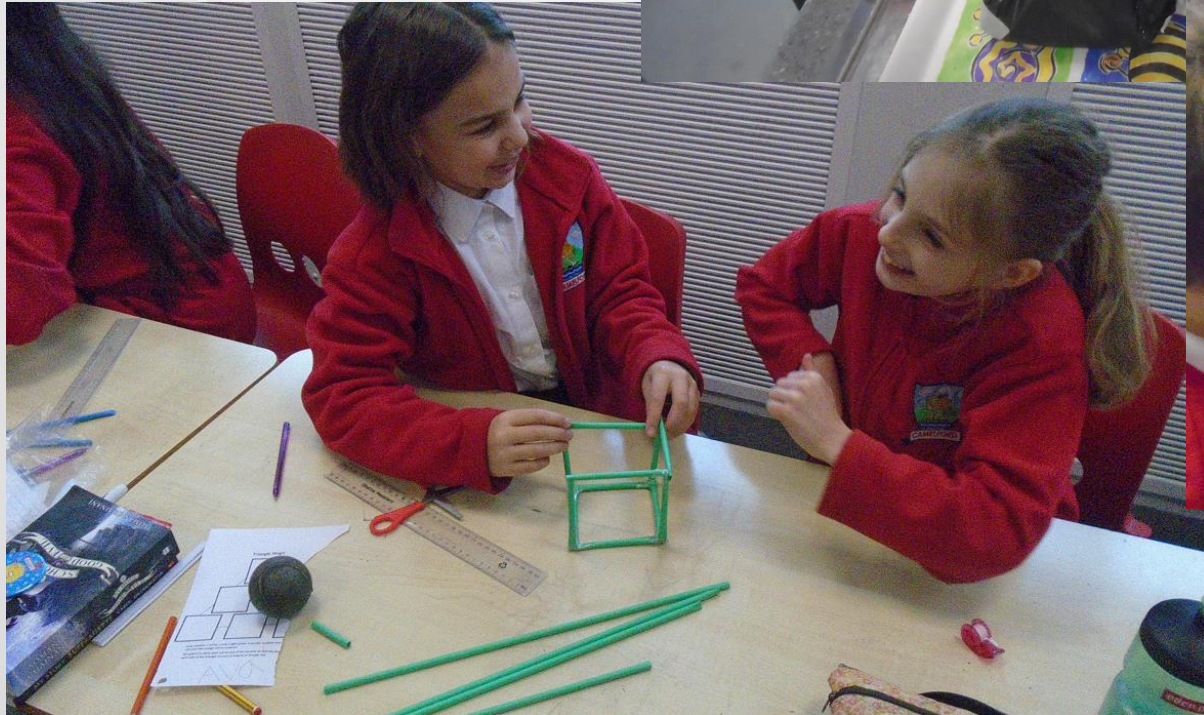

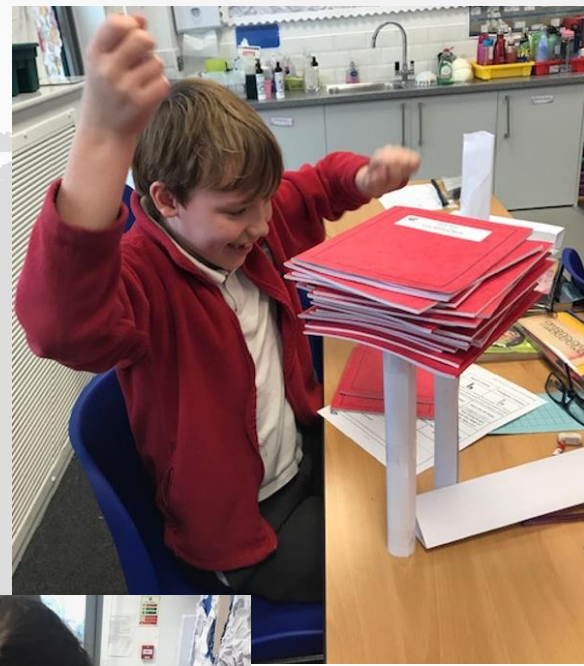

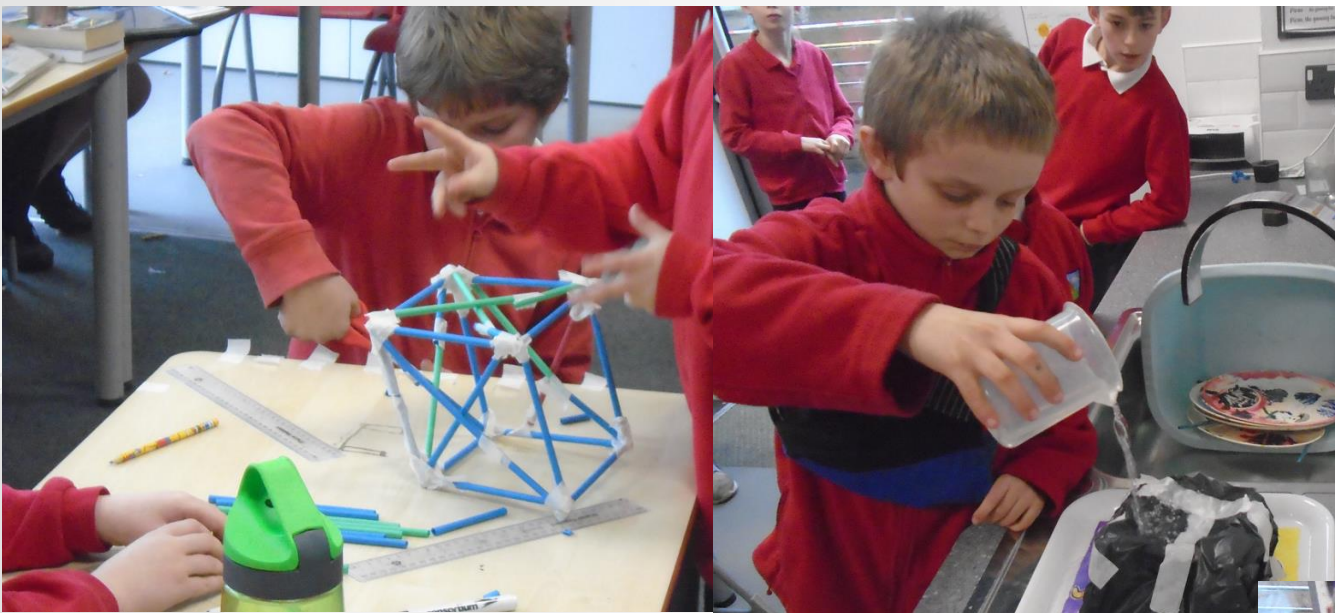

Geography
Developing our atlas reading skills and the wider world. Potato mountain is great fun!

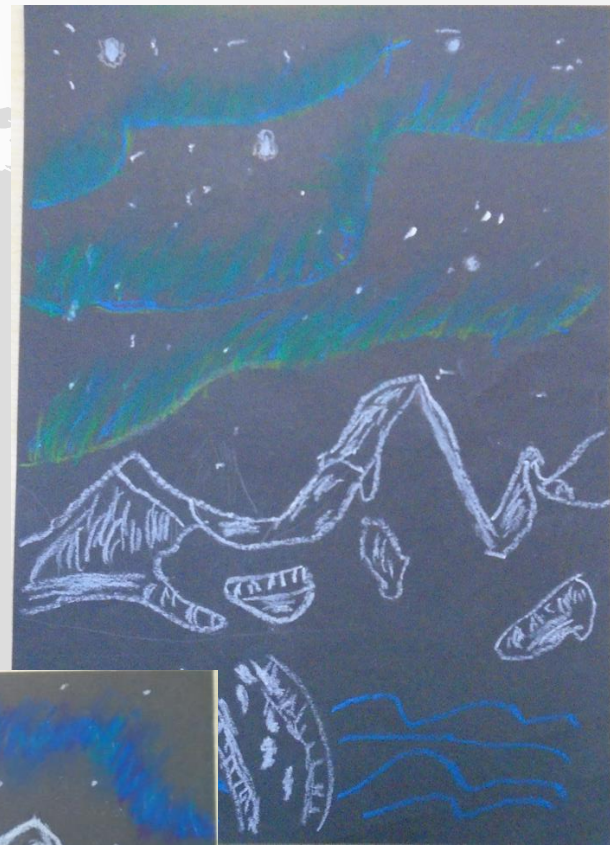

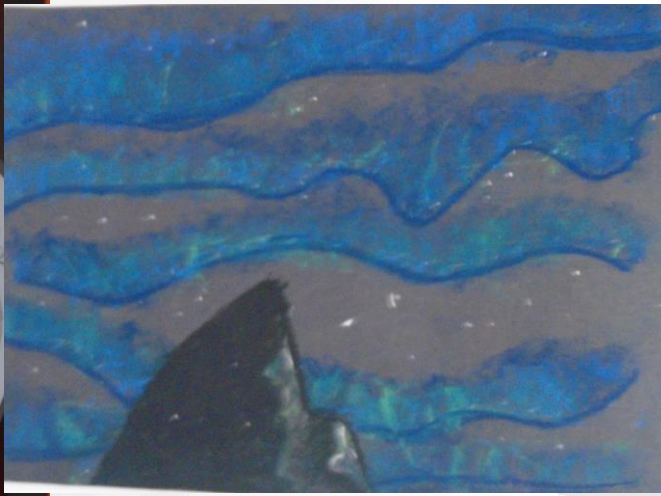

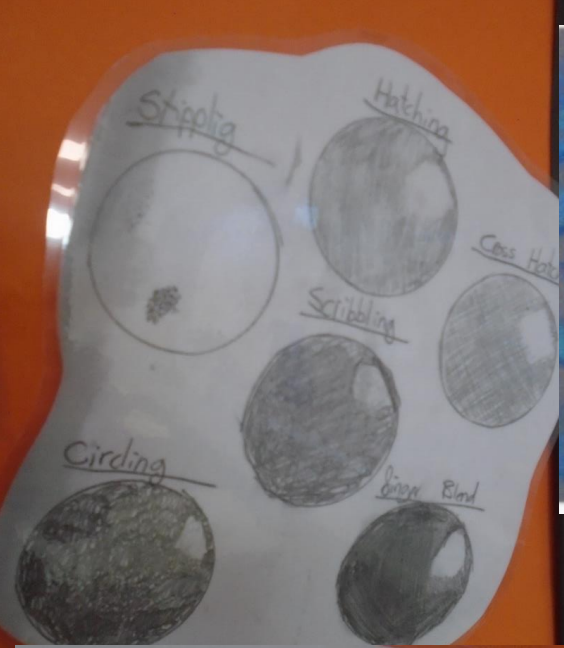

Science

We experimented many different ways to sort materials, find out what dissolves and what reactions can be reversed.

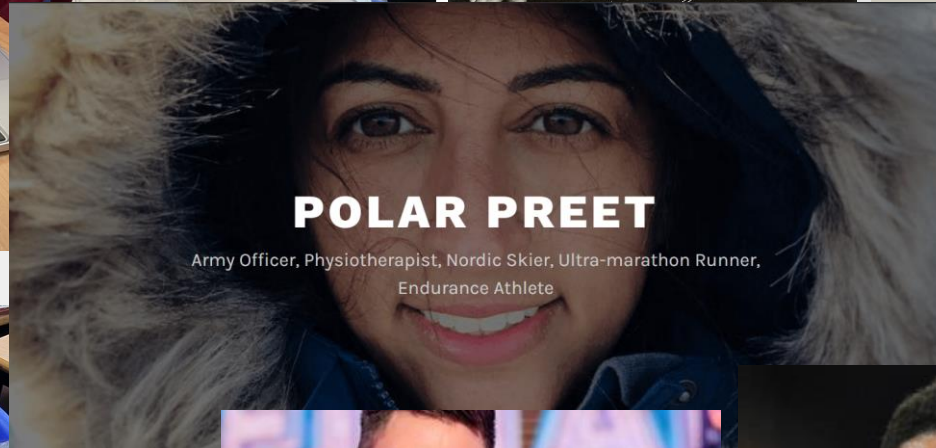

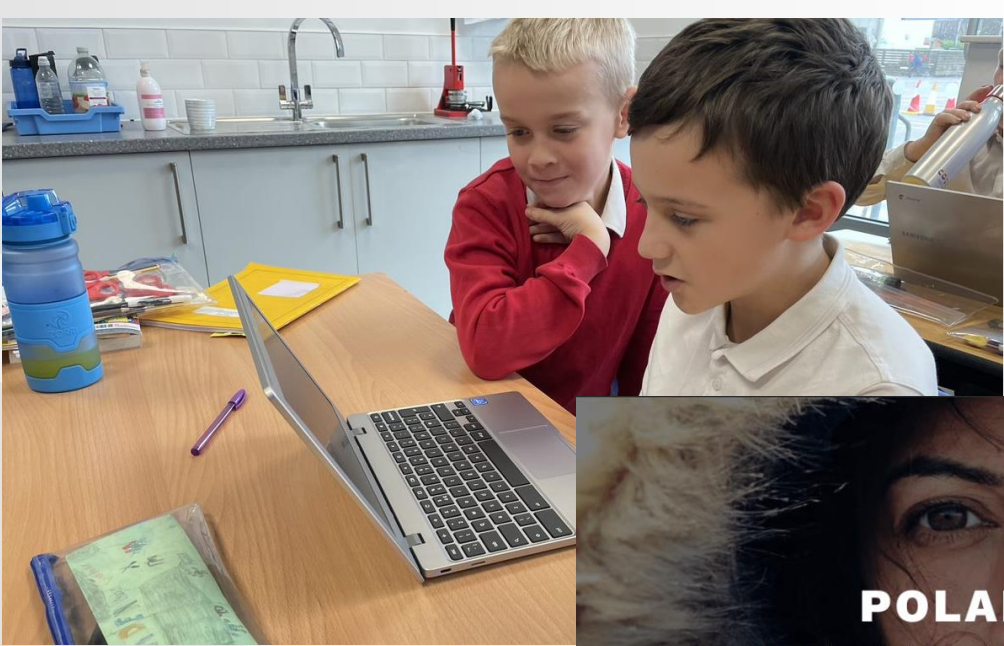

Design Technology
Building shelters to protect a toy from the elements was challenging.

Art
We began practising landscapes
building towards our final piece with the
Aurora Australis

We began practising landscapes
building towards our final piece
with the Aurora Australis

Computing
Learning how to blog about resilient people and quizzing to celebrate Safer Internet Day.

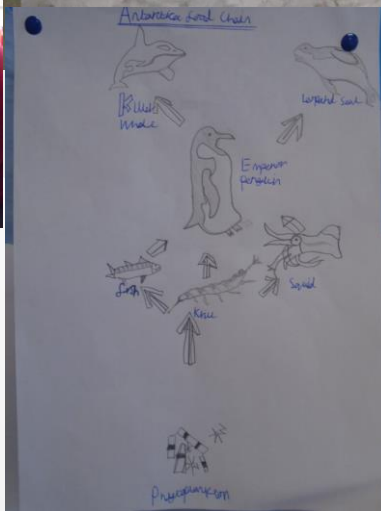

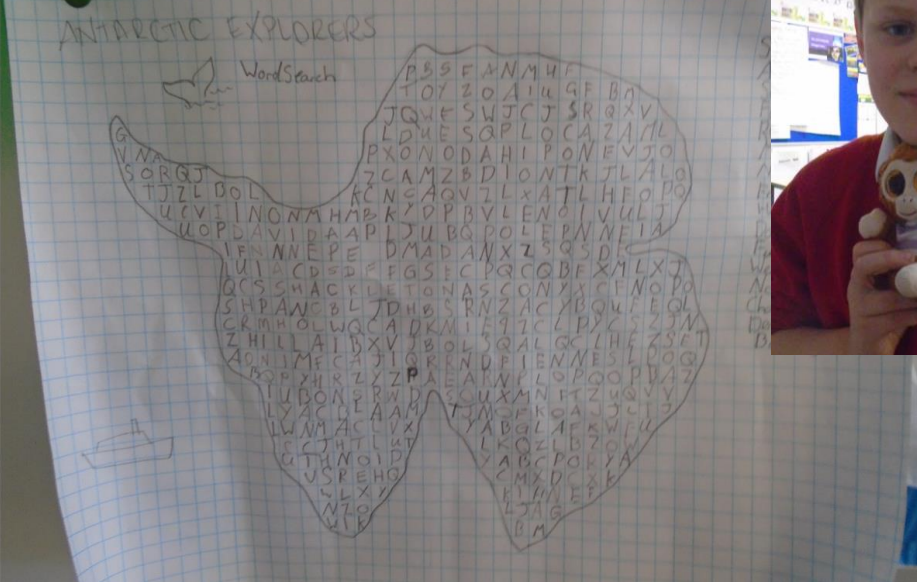

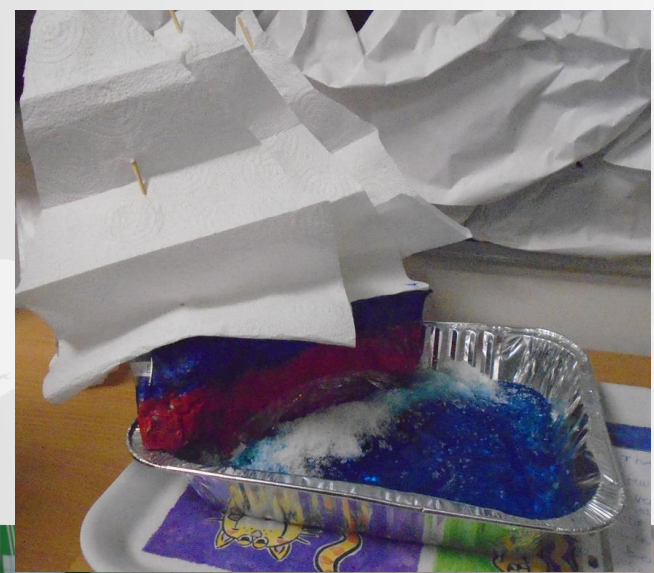

PE
Handball was great fun and a range of outdoor activities with map work was exciting.

Special Guests

We welcomed Sargent Guilfoyle who helped us understand engineering and it was great to meet Bongo the dog too.

Homework
Here is some of our fabulous home learning
