Title of Story: The Walk in the Woods

THE WALK IN THE

WOODS

"Quiet down Winnie, it's just a squirrel, it's not going to hurt you." said Alice to her best friend Winnie the dog, (a porchi) as she was barking loudly at a squirrel - which was now nearly at the top of a very large oak tree. Alice was taking her puppy Winnie to the woods near her house. She decided to take Winnie to these very specific woods because Winnie had never been there before, and Alice thought she would like it there. As soon as they got to the woods Alice was a bit surprised that it was empty... Windy, quite misty, and dark too. There was a ruggly feeling hung in the air. Alice tried to act like she was not scared but looked at Winnie, who was now quivering behind her with her tail between her legs and ears back. Alice picked Winnie up to ensure she was safe....

When suddenly all the mist cleared away - Alice gently placed Winnie back on the ground. Standing very tall and straight in front of her, was a huge wooden box? Alice was now very scared but also a bit curious. Slowly and cautiously Alice went to examine the box. It had lots of unusual knobs and handles, stuck out all over it.... Alice reached out her hand and all of a sudden BOOM! Winnie and Alice were now rapidly levitating into the air with an enormous dazzling whirlpool of glitter swirling around them....

Next minute they are both stood in the middle of a huge meadow. "Wow" said Alice that was that, Winnie wagged her tail. The jungle was far and wide and the trees were big and even bigger.

After a while of figuring out where they were and settling in they started to explore. This jungle was insanely big and so were the trees so, exploring there, was a bit difficult. 2 HOURS LATER
"Ughhh" groaned Alice. Once again Winnie was barking very loudly at a bush?
"What is it Winnie" whispered Alice. She peeped into the bush..... and out popped!!!
Her shadow? "Hello" Alice squeaked the shadow didn't answer. There was now an awkward awkward minute of silence. Then the shadow points to a tree. I walked over Winnie following closely behind me there silently stood a very big "daisy"? said Alice confused. What's that supposed to mean?
Winnie was now scratching at her feet. Alice picked her up then out of nowhere Winnie jumped onto the daisy "Wait, no Winnie don't do it you'll squish it." "We need it, it might help us get out of here"..... "Wait what?"

"Winnie" said Alice now very scared "Where are you girl" Winnie had just disappeared as soon as she touched the daisy. Alice was now worried about Winnie and wondered where she was. "Wait a sec" said Alice & What if the daisy teleported her somewhere like the time machine, she thought. Now she wanted to touch it to take her to her to where Winnie went. Then one once again Suddenly BOOM!!! a huge pink & fluffy of smoke poofed into the air as she disappeared. Now Alice was stood "back in the woods" They were back in the woods. Winnie, Winnie come" Suddenly Winnie bounded up to her, wagging her tail as fast as lightning. Winnie and Alice were now starting to talk but none. Alice was so excited to tell her her rumour all about their adventure
